SALON STYLE

## CONTOURING WITH COLOUR

Did you know you can change the way the shape of your face appears with colour placement? Colour contouring is a new way to enhance and alter the appearance of your face shape by varying dark and light tones. It can add depth and enhance or soften features without the application of makeup.

Our unique consultation determines everything from face shape through to skin tone, and by using mood boards we can offer colour recommendations tailored to each individual client.

EVENTS

## AN INDULGENT EVENING

*with The Botanist*

This month we joined The Botanist for an indulgent beauty event held in their exclusive private Plant Rooms. Clarins, Kiehls and Langley's Gin helped us to pamper the ladies who were lucky enough to have tickets for this sell-out event.

Guests enjoyed cocktails from the Langley's team and a selection of treatments from Clarins and Kiehls. The Benjamin Ryan creative team provided demonstrations on correct usage of hair products and styling tools to alter face shapes and create key trends.

We had a fabulous evening introducing guests to our bespoke consultation process, advising on everything from styling techniques to colour contouring (see left).

WE WILL BE HOLDING MORE EVENTS LIKE THIS SO PLEASE ASK OUR RECEPTION TEAM FOR FUTURE DATES OR EMAIL US

## ROXIE

*Helping clients make  
the right choices*

Roxie Hands has joined the team as our resident colour expert. With seven years' experience and a degree in colour (MCE), she can create a full spectrum of bespoke colours from wow brights to subtle enhancements and natural tones.

Roxie conducts personal skin tone analysis to determine the best hair colours for our clients, as well as which shades of makeup, jewellery and clothing will be most suited to them.
